

Register Today for ISFGMs2018!

15th International Symposium on Functionally Graded Materials

Due date for abstract submission
10 March 2018!

ISFGMs 2018

5-8 August 2018

Kitakyushu International Conference Center
Kitakyushu, Fukuoka, JAPAN

Structural Sector Approaches for New Functionalities and Durability

Functionally Graded Materials (FGMs) is controlling the properties of structural sectors inside a material to realize new functionalities and durability. The idea of FGMs is one answer to our future, since material solutions have been offered in the fields of structural and optical materials, semiconductors, biomaterials and polymers, and so on.

E-mail fgms_2018@f-jast.or.jp

Organized by
Functionally Graded Materials FORUM of JAPAN

Co-organized by
Japan Aerospace Technology Foundation
National Institute for Materials Science (planned)
The Society of Non-Traditional Technology

Sponsored by
City of Kitakyushu
Kitakyushu Convention and Visitors Association
The Amada Foundation
